Productivity Tools: Microsoft Word, Excel, PowerPoint, and Outlook.

PROFESSIONAL EXPERIENCE

Program Assistant — Orphan Care Program (OCP) and Children of Rahma (CRP) January 2026 – Present

Human Development Fund (HDF)

- Support the planning, coordination, and documentation of activities under the Orphan Care Program and Children of Rahma.
- Maintain organized beneficiary records and supporting program documentation.
- Assist with home visits, beneficiary follow-ups, mentorship, and educational activities.
- Support the coordination of donor visits and child-development initiatives.
- Assist with food parcel distributions, health-screening activities, and other program events as assigned.
- Contribute to activity documentation, reporting inputs, and follow-up actions.
- Handle sensitive beneficiary information responsibly and maintain confidentiality.
- Support program implementation through organized record keeping and coordination with colleagues.

Operations Manager Approximately two years

Shilaabo Tour & Car Hire

- Coordinate daily business operations and administrative activities.
- Support vehicle bookings, reservations, and customer communication.
- Coordinate fleet availability and vehicle readiness.
- Conduct customer follow-ups to support service delivery and customer satisfaction.
- Coordinate staff responsibilities and operational tasks.
- Maintain business records and support administrative processes.
- Identify opportunities to improve operational efficiency and customer service.

Founder / Software Engineer / SaaS Product Developer
MohaTech Solutions — *Smart Tech. Real Solutions.*

- Develop business-oriented software applications designed to improve operational workflows.
- Build frontend interfaces and integrate backend APIs and databases.
- Work on multi-tenant SaaS applications and subscription-management functionality.
- Develop and maintain web application features using modern software development tools.
- Apply debugging, testing, version control, and deployment practices.
- Develop software products focused on business management, fleet operations, and digital payment workflows.
- Selected products: WholesalePro, FleetPro, CreatorPay, and FuelFlow.

Cashier January 2020 – December 2021
Qaffee Point, Mombasa

- Supported customer transactions and daily service operations.
- Followed company procedures and security protocols.
- Maintained awareness of potential theft and fraud.
- Coordinated with relevant staff when operational or security concerns arose.
- Contributed to an organized and customer-focused service environment.

SELECTED SOFTWARE PROJECTS

WholesalePro wholesalepro.mohatechsolutions.com
A wholesale business management application designed to support inventory-related workflows and organized business operations.

FleetPro fleet-pro-frontend.vercel.app
A fleet and car-hire management application focused on vehicle information, booking workflows, and rental pricing.

CreatorPay creator-pay-frontend.vercel.app
A software product focused on creator-oriented payment workflows and related account-management functionality.

FuelFlow
A software product focused on fuel-related business workflows and operational information management.

Car Hire Administration System
An academic software engineering project featuring a login interface, dashboard, and MongoDB integration. The project focused on supporting car-hire administration through a digital application.
